BAG-IN-BOX TECHNOLOGY

With the highest regard for the integrity of your products, our aseptic capabilities put Liqui-Box as the leader in the liquid food arena. From Form-Fill-Seal aseptic filling to the low cost StarAsept bulk bag filler, our attention to detail keeps Liqui-Box's aseptic and extended shelf-life (ESL) process optimized for your application. In addition, we help you produce high acid, low acid, large particulates or small, with our unique “single-valve” design. Simply put, Liqui-Box is in control, ensuring a complete aseptic environment throughout the filling process.

FILLERS

From 3oz. pouches, to 370 gallon bulk bags our superior Engineering Team has designed a filling system to meet your requirements. Our equipment fills beverages as well as ESL and Aseptic products, with monitoring systems that provide peace of mind in the most demanding environments. Regardless of your liquid product and application, Liqui-Box has the filling equipment for you.

INDUSTRY BAGS

With our diverse portfolio of films, Liqui-Box is poised to deliver the perfect bags for your premium products. Our high quality film structures provide outstanding protection to the integrity of your product, maintaining all barrier and shelf-life properties by preventing the entry of oxygen, oil and moisture.

PASTEURIZED

Liqui-Box dairy bags are made of FDA-certified resins specially designed for contact with food.

EXTENDED SHELF LIFE (ESL)

Liqui-Box ESL keeps your product in ideal conditions longer by filling inside a sterilized chamber. Our ESL dairy bags are produced with FDA-certified resins, meet superior Liqui-Box quality standards, and are sterilized through gamma irradiation.

ASEPTIC

Our bags are made of FDA-certified resins and are sterilized with the appropriate level of gamma irradiation, depending on product type. This keeps your products safe and natural without the use of preservatives and chemicals.

FITMENTS

Our state-of-the-art lab delivers customized fitments, caps and valves, providing the perfect fit for all your packaging needs.

Liqui-Box innovates to fulfill global liquid packaging needs with reliable and sustainable solutions that protect your liquid assets and propel your performance and productivity.
