MAKE A
SPLASH WITH
AQUAPUR

LIQUI-BOX
DESIGN. CONNECT. DELIVER.

WHAT IS AQUAPUR?

AquaPur is an innovative new package designed specifically for bag-in-box water applications. The AquaPur film was designed to deliver outstanding durability and preserve water's natural freshness and purity. The development of AquaPur included rigorous 3rd party sensory testing to validate its protection against any outside flavor contaminants. AquaPur's robust film and dispensing tap allows you to conveniently enjoy bag-in-box water in virtually any environment.

SAVE SHIPPING COSTS AND SHELF SPACE

Bag-in-box maximizes your transportation efficiency and shelf space. The design of AquaPur's package allows for greater shelf visibility and more efficient use of shelf space as compared to traditional water bottles.

AQUAPUR DELIVERS 23% SPACE REDUCTION

The 5L AquaPur bag-in-box reduces storage, transportation, and shelf space by 23% over the 10 - 0.5L bottles shown below. As a result, less energy is required to provide customers your valuable product.

The unfilled bag-in-box package further optimizes your transportation costs, saving you money while reducing your carbon footprint.

PRESERVE FRESHNESS

AquaPur's water film preserves your water's flavor and freshness. It is BPA free, ensuring your customers will receive the highest quality product from you with bag-in-box. **Contact Liqui-Box today for more information!**

The durable outer film layer provides optimal protection for your water through filling, transportation and delivery.

The inner film layer preserves your water's freshness and taste ensuring the highest quality water is delivered every time.

CONVENIENT DISPENSING

The AquaPur dispensing tap has been developed specifically for the needs of the water market to deliver an outstanding experience. AquaPur's tap makes dispensing quality water quick and convenient in any environment.

MAXIMIZE YOUR BRAND

Bag-in-box allows you to maximize your brand exposure with highly visible customer facing graphics and increased label area.

AquaPur delivers the flexibility to choose your secondary packaging and maximize your brand visibility.

USE AQUAPUR EVERYWHERE

AquaPur's dispensing tap makes it a perfect option for storage and dispensing in your refrigerator, on kitchen counter tops, or the dinner table.

AquaPur integrates seamlessly with industry standard bag-in-box chillers, which make it the ideal option to replace your old worn out office water cooler.

AquaPur's flexibility also makes it convenient for family picnics, sporting events, or other outdoor activities.

Liqui-Box innovates to fulfill global liquid packaging needs with reliable and sustainable solutions that protect your liquid assets and propel your performance and productivity.
