

LIQUI-BOX VINO₂GARD WINE FILM

PRESERVES FLAVOR

The VINO₂GARD film is developed specifically to protect wine from degradation due to oxygen transmission which ensures consistent quality from the first glass to the last. When combined with Liqui-Box's proprietary product contact inner ply, our wine bags deliver unprecedented quality and protection for your wine's complex flavor profile.

REDUCES CARBON FOOTPRINT

VINO₂GARD uses a coextruded film structure that reduces waste and CO₂ emissions due to a streamlined manufacturing process. This innovative new film eliminates the film orientation and laminating processes as well as obsoleting the need for adhesives or heat that are required to produce other wine packaging films.

DURABILITY

The robust structure used by VINO₂GARD delivers optimal protection for your wines during packaging, transportation and storage.

EASE OF PROCESSING

VINO₂GARD was developed to provide excellent low friction characteristics to ensure smooth operation during filling, and loading.

DESIGN. CONNECT. DELIVER.

VINO₂GARD'S COEXTRUDED FILM STRUCTURE STREAMLINES MANUFACTURING, ELIMINATES WASTE & REDUCES CARBON FOOTPRINT

VINO₂GARD PROTECTS THE QUALITY OF YOUR WINES TO DELIVER A REFINED EXPERIENCE FOR YOUR CUSTOMERS

VINO₂GARD REDUCES PACKAGING WASTE

The VINO₂GARD film not only reduces manufacturing waste, but optimizes transportation and storage as well when compared to traditional glass bottles. The same amount of your premium wine can be packaged in six 5L bags compared to forty 750ML glass wine bottles which reduces your overall carbon footprint.

WHY USE VINO₂GARD?

Refined wine drinkers today are looking for a product that is high quality and produced, packaged and delivered in an environmentally responsible manner. VINO₂GARD'S meets these needs and is perfect for today's premium wines. The protection and preservation VINO₂GARD delivers ensures your customers receive the highest quality experience from the first glass to the last.

Discover how you can save money, reduce your carbon footprint, and deliver a refined wine experience to your customers with VINO₂GARD.
