

# Everything you need in one powerful bulk bagging machine

With the StarAsept® bulk bag filler from Liqui-Box, you can lock in the quality of your low-acid and high-acid aseptic products. Featuring the famously compact footprint of Liqui-Box fillers, the StarAsept is specifically engineered to eliminate the need for chemical sterilants, minimize oxygen penetration and streamline the filling zone. Our proprietary fitments and film structures work seamlessly with the StarAsept to deliver a complete bagging system that preserves your products through the entire packaging, filling and distribution process.

## Advanced Sterilization

The StarAsept's patented sterilization chamber provides a closed, aseptic environment during the entire filling process. Coupled with powerful steam sterilization, the StarAsept reduces utility costs and maintains fully sterile fitments for your application.

## Reliable Operation

As a leading tote-sized bag filler, the StarAsept has years of proven use with outstanding reliability that maximizes production up-time.

## Powerful Rate of Fill

The StarAsept fills up to 100 gallons (378.5 liters) per minute and is capable of filling a range of bags from 55 gallons (200 liters) to 370 gallons (1,400 liters).\* A meticulously engineered load-cell filling management system ensures a highly accurate fill for your products each and every time.

## Secure Design

The StarAsept filling system is CE certified and meets all local safety regulations.

*\* Numbers are average filling rates recorded in various customer facilities. Actual rate is dependent on operator dexterity, product supply rate and bag size.*

## A system designed to fulfill your business needs

Designed for aseptic bulk fill applications, the StarAsept delivers best-in-class sterilization, efficiency and reliability – helping to ensure your products arrive at their final destination as safely and swiftly as possible.

### Simple, User-Friendly Interface

Fail-safe controls and user-friendly operation make the StarAsept stand alone in the aseptic bulk packaging arena.

### Low Total Cost of Ownership

Efficient sterilization combined with reliability deliver savings to your bulk filling process.

### High Business Value

Suitable for vegetables, tomato products, condiments, cheese sauces, gravies, syrups, juices and many other liquid foods, the StarAsept safely packages products while ensuring reliable, low-cost production.

## The aseptic processing and packaging solution from which all good things flow

At Liqui-Box, we're committed to creating impenetrable partnerships with our customers through liquid packaging solutions that protect products, investments and the planet.

Contact your Liqui-Box representative or email [info@liquibox.com](mailto:info@liquibox.com) to begin a trial, and take the first step toward best-in-class preservation of your products.
