

Quality painting made easy with durable, environmentally conscious bag-in-box packaging

Whether you are manufacturing bulk coatings for industrial use or looking for user-friendly and safe packaging for your water-based paints and varnishes for home applications, bag-in-box flexible packaging will keep your products protected throughout the supply chain while minimizing product waste and environmental impact. Our offering includes innovative bag-in-box packaging solutions, dispensing options and state-of-the-art filling equipment for preserving the quality of your liquids.

Why choose bag-in-box for paint and coatings?

Bag-in-box meets the growing industry need for more practical and sustainable alternatives to tin cans and plastic jugs.

55%
less
plastic than HDPE

50%
lighter
on average than tin cans

90%
less CO₂
footprint vs. tin can

100%
recyclable
outer box

Benefits of bag-in-box

- Longer shelf life: up to 2 years after opening, depending on storage conditions
- Protection against light and oxygen so paint does not get dry or form crust
- User-friendly packaging and versatile dispensing options, eliminating splashing or glugging
- Stackable and lightweight for easier and more efficient storage and transport
- Enhanced branding impact for retail displays
- Excellent environmental profile
- Eliminates contamination and discoloration of paint caused by corrosion of metal can

Bags & films for paint, coatings & varnishes

We offer a wide range of robust film technologies for the paint market that deliver superior drop protection, flex crack resistance and long-distance shipping durability, including metPET laminate, EVOH with PE layering and biaxially-oriented nylon (BON) laminated structures.

Our bags provide maximum product protection and up to 99% product evacuation.

Our bags are available in 1L (0.25G) to 1400L (370G) with custom sizing options available.

Dispensing fitments for paint, coatings & varnishes

Our dispensing fitments and taps for B2C and B2B applications provide safety and optimized directional flow, quick and precise dispensing without dripping or glugging and ergonomic designs for easy dispensing by the consumer. We offer:
